

## **Spring 2014 Workshops – Housing List**

This is a list of housing agents, residences and hotels that we recommend and frequently work with when finding accommodations for our students. The staff at each speaks English, so you will be able to communicate your housing requirements without any problems. You should mention that you are enrolled in the Spring Workshops as we have contacted each of them indicating that our students might be getting in touch for assistance in finding accommodations for one or two weeks. A small discount may be applied! There are many other housing agents, hotels, residences and bed and breakfasts in Florence so, should you not find what you are looking for with the agents listed below, you will certainly not have any problems in finding suitable accommodations independently.

### **Housing Agents:**
